

# Manufacturer Information CW09/2022

Software and hardware changes (according to NAMUR recommendation NE 53)

## 1. Type of device

- Field device
  Signal processing device  
 Monitoring-operating system
  Operating system software

**Manufacturer:** VEGA Grieshaber KG    **Device:** \_\_\_\_\_    **Type:** DTM Collection 03/2022

## 2. Software

Previous software version: 

	1

 . 

8	7

 . 

0	

 dated 11.10.2021  
 New software version: 

	2

 . 

0	0

 . 

0	

 dated 01.03.2022

The DTM Collection 03/2022 contains the frame application PACTware as well as the corresponding DTMs of the VEGA instruments.

Description of the changes compared to the previous version:

Error correction and enhancements of the VEGA DTM Collection. Further details of the software history and the function volume see VEGA homepage: [www.vega.com](http://www.vega.com) under Downloads.

## 3. Hardware I

Previous hardware version: 

 . 

 . 

 dated \_\_\_\_\_  
 New hardware version: 

 . 

 . 

 dated \_\_\_\_\_

Description of the modification in comparison with the predecessor version:

-

## 4. Software compatibility

Is a software replacement necessary?

- No  
 Yes, reason:

The DTM Collection version mentioned here is necessary for the operation of the new radar sensor VEGAPULS 6X.

Otherwise see point 2.

Is compatibility given after installation of the new software?

- Yes  
 No, description:

How can the replacement be carried out? (Description of the procedure)

The software update is carried out with the setup on the PC.

#### 4. Instruction manual

Is a modification of the instruction manual necessary due to the modification of the software or hardware?

Yes,

Device type	new instruction no.	dated
PACTware/DTM Collection	28243	01.02.2022

No,

Device type	previous instruction no.	dated
PACTware/DTM Collection	28243	03.09.2021

#### 5. Price

Change in price of device in comparison with previous version?

No

Yes

Previous list price of device: \_\_\_\_\_ €

New list price of device: \_\_\_\_\_ €

Price for update (without installation): \_\_\_\_\_ €

## 1. Type of device

- Field device
  Signal processing device  
 Monitoring-operating system
  Operating system software

**Manufacturer:** VEGA Grieshaber KG   
 **Device:** \_\_\_\_\_   
 **Type:** DTM Collection 10/2021

## 2. Software

Previous software version: 

	1

 . 

8	6

 . 

1	

 dated 09.04.2021  
 New software version: 

	1

 . 

8	7

 . 

0	

 dated 11.10.2021

The DTM Collection 10/2021 contains the frame application PACTware as well as the corresponding DTMs of the VEGA instruments.

Description of the changes compared to the previous version:

Error correction and enhancements of the VEGA DTM Collection. Further details of the software history and the function volume see VEGA homepage: [www.vega.com](http://www.vega.com) under Downloads.

## 3. Hardware I

Previous hardware version: 

 . 

 . 

 dated \_\_\_\_\_  
 New hardware version: 

 . 

 . 

 dated \_\_\_\_\_

Description of the modification in comparison with the predecessor version:

-

## 4. Software compatibility

Is a software replacement necessary?

- No  
 Yes, reason:

The new version 2.0 of the interface adapter VEGACONNECT4 requires the DTM Collection Version mentioned here.

Otherwise see point 2.

Is compatibility given after installation of the new software?

- Yes  
 No, description:

How can the replacement be carried out? (Description of the procedure)

The software update is carried out with the setup on the PC.

#### 4. Instruction manual

Is a modification of the instruction manual necessary due to the modification of the software or hardware?

Yes,

Device type	new instruction no.	dated
PACTware/DTM Collection	28243	03.09.2021

No,

Device type	previous instruction no.	dated
PACTware/DTM Collection	28243	22.01.2021

 . 

--	--

 . 

--	--

 dated \_\_\_\_\_  
 New hardware version: 

--	--

 . 

--	--

 . 

--	--

 dated \_\_\_\_\_

Description of the modification in comparison with the predecessor version:

-

## 4. Software compatibility

Is a software replacement necessary?

- No  
 Yes, reason:

Unintentional overwriting of a false signal suppression when operating the newer VEGAPULS sensor generations can lead to incorrect measurements.

Otherwise see point 2.

Is compatibility given after installation of the new software?

- Yes  
 No, description:

How can the replacement be carried out? (Description of the procedure)

The software update is carried out with the setup on the PC.

#### 4. Instruction manual

Is a modification of the instruction manual necessary due to the modification of the software or hardware?

Yes,

Device type	new instruction no.	dated

No,

Device type	previous instruction no.	dated
PACTware/DTM Collection

# Manufacturer Information CW26/2017

Software and hardware changes (according to NAMUR recommendation NE 53)

## 1. Type of device

- Field device
  Signal processing device  
 Monitoring-operating system
  Operating system software

**Manufacturer:** VEGA Grieshaber KG   
 **Device:** \_\_\_\_\_   
 **Type:** DTM Collection 07/2017

## 2. Software

Previous software version: 

	1
--	---

 . 

7	9
---	---

 . 

0	
---	--

 dated 13.3.2017  
 New software version: 

1	
---	--

 . 

8	0
---	---

 . 

0	
---	--

 dated 26.6.2017

Description of the modification in comparison with the predecessor version:

The DTM Collection 07/2017 contains the frame application PACTware as well as the corresponding DTMs of the VEGA instruments.

Description of the changes compared to the previous version:

Function extension of the VEGA DTM Collection. Further details of the software history and the function volume on the VEGA homepage: [www.vega.com](http://www.vega.com) under Downloads.

## 3. Hardware I

Previous hardware version: 

--	--

 . 

--	--

 . 

--	--

 dated \_\_\_\_\_  
 New hardware version: 

--	--

 . 

--	--

 . 

--	--

 dated \_\_\_\_\_

Description of the modification in comparison with the predecessor version:

<brief summary of the changes>

## 4. Software compatibility

Is a software replacement necessary?

- No  
 Yes, reason:  
     The DTM for support of VEGADIF 85 has been added to the DTM-Collection initially

Is compatibility given after installation of the new software?

- Yes  
 No, description:

How can the replacement be carried out? (Description of the procedure)

The software update is carried out with the setup on the PC.

#### 4. Instruction manual

Is a modification of the instruction manual necessary due to the modification of the software or hardware?

Yes,

Device type	new instruction no.	dated
PACTware/DTM Collection	28243	17.05.2017

No,

Device type	previous instruction no.	dated
PACTware/DTM Collection	28243	01.03.2017

#### 5. Price

Change in price of device in comparison with previous version?

No

Yes

## Manufacturer information

Software and hardware changes (similar to NAMUR recommendation NE 53)

### 1. Instrument type

1. Field device  2. Signal processing instrument  
 3. Display/adjustment component  4. Adjustment software

**Manufacturer:** VEGA Grieshaber KG

**Instrument:** \_\_\_\_\_

**Type:** DTM Collection 06/2016

### 2. Software

Previous software version:  .   .   of 01.03.2016

New software version:  .   .   of 01.06.2016

The DTM Collection 06/2016 contains the frame application PACTware as well as the corresponding DTMs of the VEGA instruments.

Description of the changes compared to the previous version:

Function extension of the VEGA DTM Collection. Further details of the software history and the function volume on the VEGA homepage: [www.vega.com](http://www.vega.com) under Downloads.

### 3. Hardware

Previous hardware version:  .   .   of \_\_\_\_\_

New hardware version:  .   .   of \_\_\_\_\_

Description of the changes compared to the previous version:

Not relevant

## 4. Software compatibility

Is a software update necessary?

- No       Yes      Exception new instruments requiring a new DTM which was not available in the previous version of the DTM Collection.

Is there a downward compatibility after the software update?

- Yes       No, description:

How is the software update carried out (description of the procedure)?

If necessary (new instrument or function extensions), the software update is carried out with the setup on the PC.

---

## 4. Operating instructions

Was the operating instructions changed due to the software/hardware modification?

- Yes,      new instruction no.:    28243      of:    10.05.2016
- No,      previous instruction no.: \_\_\_\_\_ of: \_\_\_\_\_

---

## 5. Instrument price

Did the instrument price change?

- No       Yes

Previous instrument list price: \_\_\_\_\_ €

New instrument list price: \_\_\_\_\_ €

Price for one update (without installation): \_\_\_\_\_ €
