

Manufacturer Information

Software and hardware changes (according to NAMUR recommendation NE 53)

1. Type of instrument

1. Field device
 2. Signal processing instrument
 3. Display/adjustment system
 4. Adjustment software

Manufacturer: VEGA Grieshaber
KG

Instr.: PLICSCOM **Type** : PLICSCOM.XW

2. Software

Previous software version:

 .

 .

 Dated _____
 New software version:

 .

 .

 Dated _____

Description of the modification in comparison with the predecessor version:

For detailed information see overview of the versions in the download area under www.vega.com/downloads.

3. Hardware

Previous hardware version:

0	1

 .

1	4

 .

0	0

 Dated 10/2021
 New hardware version:

0	1

 .

1	5

 .

0	0

 Dated 09/2024

Description of the modification in comparison with the predecessor version:

- Explosion protection:
 - o Hardware change to increase the safety in gas group IIC

For detailed information see overview of the versions in the download area under www.vega.com/downloads.

4. Software compatibility

Is a software update necessary?

- No
 Yes, reason:

Is downward compatibility given after installation of the new software?

- Yes
 No, description:

How can the software update be carried out? (description of the procedure)

The software update can be carried out with PACTware/DTM and the hardware Bluetooth USB adapter via Bluetooth.

4. Operating instructions

Was the operating instructions changed due to the software/hardware modification?

Yes,

Instrument type	New instruction no.	Dated

No,

Instrument type	Previous instruction no.	Dated

5. Price

Did the price change?

No

Yes

Previous list price of the instrument: _____ 198 €

New list price of the instrument: _____ €

Price for an update (without installation): _____ €

2024-09-27

1	4

 .

0	0
0	0

 Dated July 2021
 New software version:

0	1
1	5

 .

0	0
0	0

 Dated October 2021

Description of the modification in comparison with the predecessor version:

New functions:

- PLICSCOM as Hardware version without Bluetooth possible

Fault rectifications:

- Prevent PLICSCOM from restarting if Bluetooth switch is set to "Off" for plics® sensors

For detailed information see overview of the versions in the download area under www.vega.com/downloads.

3. Hardware

Previous hardware version:

 .

 .

 Dated _____
 New hardware version:

 .

 .

 Dated _____

Description of the modification in comparison with the predecessor version:

For detailed information see overview of the versions in the download area under www.vega.com/downloads.

4. Software compatibility

Is a software update necessary?

- No
 Yes, reason:

Is downward compatibility given after installation of the new software?

- Yes
 No, description:

How can the software update be carried out? (description of the procedure)

The software update can be carried out with PACTware/DTM and the hardware Bluetooth USB adapter via Bluetooth.

4. Operating instructions

Was the operating instructions changed due to the software/hardware modification?

Yes,

Instrument type	New instruction no.	Dated

No,

Instrument type	Previous instruction no.	Dated

5. Price

Manufacturer Information

Software and hardware changes (according to NAMUR recommendation NE 53)

1. Type of instrument

1. Field device
 2. Signal processing instrument
 3. Display/adjustment system
 4. Adjustment software

Manufacturer: VEGA Grieshaber
KG

Instr.: PLICSCOM **Type** : PLICSCOM.XW

2. Software

Previous software version:

0	1	.	1	2	.	0	1	Dated	April 2016
---	---	---	---	---	---	---	---	-------	------------

New software version:

0	1	.	1	3	.	0	0	Dated	April 2018
---	---	---	---	---	---	---	---	-------	------------

Description of the modification in comparison with the predecessor version:

Fault rectifications:

- plics®plus sensors:
 - A Bluetooth communication can be interrupted at plics®plus sensors with older software versions. PLICSCOM remains in the figure "Bluetooth connected".
- PROTRAC sensors:
 - PLICSCOM restarts while connecting to PROTRAC sensors
- Communication:
 - Improved and more stable communication to the sensor and via Bluetooth

For detailed information see overview of the versions in the download area under www.vega.com/downloads.

3. Hardware

Previous hardware version:

		.			.			Dated	_____
--	--	---	--	--	---	--	--	-------	-------

New hardware version:

		.			.			Dated	_____
--	--	---	--	--	---	--	--	-------	-------

Description of the modification in comparison with the predecessor version:

For detailed information see overview of the versions in the download area under www.vega.com/downloads.

4. Software compatibility

Is a software update necessary?

- No
 Yes, reason:
 Several errors are removed with the new software.

Is downward compatibility given after installation of the new software?

- Yes
 No, description:

How can the software update be carried out? (description of the procedure)

The software update can be carried out with PACTware/DTM and the hardware Bluetooth USB adapter via Bluetooth.

4. Operating instructions

Was the operating instructions changed due to the software/hardware modification?

Description of the modification in comparison with the predecessor version:

Error corrections:

- Background lighting:
 - Increase of the illuminance
- Explosion protection:
 - Intrinsically safe connection of the display
 - No gluing required
- Start-up behaviour
 - Avoiding of undefined start-up behaviour

For detailed information see overview of the versions in the download area under www.vega.com/downloads.
