

Manufacturer information week 23/2020

Software and hardware changes (according to NAMUR recommendation NE 53)

1. Type of instrument

- Field device
 Signal processing instrument
 Display/adjustment system
 Adjustment software

Manufacturer: VEGA Grieshaber
KG

Instr.: PLICSMOBILE **Type** : Series 80

2. Software

Previous software version:

0	1
---	---

 .

0	2
---	---

 .

0	0
---	---

 Dated April 2019
 New software version:

0	1
---	---

 .

0	3
---	---

 .

0	0
---	---

 Dated June 2020

Description of the modification in comparison with the predecessor version:

Function extensions

- Daily restart
 - o Daily restart active
- Provider selection
 - o Provider selection possible

Error corrections

- Mobile radio
 - o Improvement of mobile communication in case of interference
- PLICSMOBILE B81
 - o Incorrect battery charge level corrected

For detailed information see overview of the versions in the download area under www.vega.com/downloads.

3. Hardware I

Previous hardware version:

0	1
---	---

 .

0	0
---	---

 .

0	0
---	---

 Dated April 2017
 New hardware version:

--	--

 .

--	--

 .

--	--

 Dated _____

Description of the modification in comparison with the predecessor version:

For detailed information see overview of the versions in the download area under www.vega.com/downloads.

4. Software compatibility

Is a software update necessary?

- No
 Yes, reason:
 Improved error handling for mobile radio interference

Is downward compatibility given after installation of the new software?

- Yes
 No, description:

How can the software update be carried out? (description of the procedure)

Via adjustment tool PACTware/DTM with Bluetooth USB adapter.

4. Operating instructions

Was the operating instructions changed due to the software/hardware modification?

- Yes,

Instrument type	New instruction no.	Dated

- No,

Instrument type	Previous instruction no.	Dated

5. Price

Did the price change?

- No
 Yes

Previous list price of the instrument: _____ €

New list price of the instrument: _____ €

Price for an update (without installation): _____ €

---	---

 Dated March 2018

New software version:

0	1
---	---

 .

0	2
---	---

 .

0	0
---	---

 Dated April 2019

Description of the modification in comparison with the predecessor version:

○ .

For detailed information see overview of the versions in the download area under www.vega.com/downloads.

3. Hardware I

Previous hardware version:

0	1
---	---

 .

0	0
---	---

 .

0	0
---	---

 Dated April 2017

New hardware version:

--	--

 .

--	--

 .

--	--

 Dated _____

Description of the modification in comparison with the predecessor version:

Function extensions

- HART Master
 - Change-over between Primary and Secondary Master possible
- Roaming
 - Reset value set to "ON"

Error corrections

- Error status HART variables
 - The error status of the HART variables was not evaluated correctly

For detailed information see overview of the versions in the download area under www.vega.com/downloads.

4. Software compatibility

Is a software update necessary?

- No
 Yes, reason:

If only measured values are retrieved via the HART variables, otherwise the error status is not evaluated correctly.

Is downward compatibility given after installation of the new software?

- Yes
 No, description:

How can the software update be carried out? (description of the procedure)

Via adjustment tool PACTware/DTM with Bluetooth USB adapter.

4. Operating instructions

Was the operating instructions changed due to the software/hardware modification?

- Yes,

Instrument type	New instruction no.	Dated

- No,

Instrument type	Previous instruction no.	Dated

5. Price

Did the price change?

- No
 Yes

Previous list price of the instrument: _____ €

New list price of the instrument: _____ €

Price for an update (without installation): _____ €

Manufacturer information week 20/2017

Software and hardware changes (according to NAMUR recommendation NE 53)

1. Type of instrument

- Field device
 Signal processing instrument
 Display/adjustment system
 Adjustment software

Manufacturer: VEGA Grieshaber
KG

Instr.: PLICSMOBILE **Type** : T81

2. Software

Previous software version:

	1	.	0	0	.	0	0
--	---	---	---	---	---	---	---

 Dated April 2017

New software version:

	1	.	0	0	.	0	1
--	---	---	---	---	---	---	---

 Dated May 2017

Description of the modification in comparison with the predecessor version:

- Software update
 - o A software update without inserted SIM card is not possible
- HART variables
 - o While selecting the values to be transmitted there were transposed digits. Selected value to be sent - Actual value which is sent
 - PV – QV
 - SV – PV
 - TV – SV
 - QV – TV
 In addition, the units of SV, TV and QV were not sent.
- Bluetooth
 - o Was Bluetooth switched off and the instrument was switched off and on again, then PLICSMOBILE does not start correctly
- Test transmission
 - o During a test transmission with the key "Send" the sensor is switched on for a sufficient time in the power saving mode
- Measured value transmission VEGA Inventory System
 - o With a PLICSMOBILE with up to 15 measuring points, only the first 8 measuring point were sent

For detailed information see overview of the versions in the download area under www.vega.com/downloads.

3. Hardware I

Previous hardware version:

	1	.	0	0	.	0	0
--	---	---	---	---	---	---	---

 Dated April 2017

New hardware version:

		.			.		
--	--	---	--	--	---	--	--

 Dated _____

Description of the modification in comparison with the predecessor version:

For detailed information see overview of the versions in the download area under www.vega.com/downloads.

4. Software compatibility

Is a software update necessary?

- No
 Yes, reason:

Is downward compatibility given after installation of the new software?

- Yes
 No, description:

How can the software update be carried out (description of the procedure)?

Via adjustment tool PACTware/DTM with Bluetooth USB adapter

4. Operating instructions

Was the operating instructions changed due to the software/hardware modification?

- Yes,

Instrument type	New instruction no.	Dated

- No,

Instrument type	Previous instruction no.	Dated
PLICSMOBILE T81	55234	April 2017

5. Price

Did the price change?

- No
 Yes

Previous list price of the instrument: _____ €

New list price of the instrument: _____ €
